

43" Network Digital Menu Board

Everything You Need, for One Great Price and All from One Supplier

All-in-One Solution

Combine a commercial grade LCD screen, an Android Network Media Player, 1 year free subscription to our premium Digital Signage software as well as a 3 year warranty and lifetime technical support. Digital Menu Boards have been made easy with this package, there is no complicated software installation; it's a straight out of the box Digital Signage solution. Get this All-in-One solution from the same supplier, it really is that simple.

Template Library

Browse and choose from our exclusive library of Digital Signage templates. Within each predesigned template you get the original media files, template layout and playlist. You can customise each of these to just how you would like. You can add your own branding, images or videos. Change the font size or colour. The template are fully adaptable to your needs.

Narrow Bezel

The narrow bezel on the Digital Menu Boards allows your menu to take centre stage. When multiple Digital Menu Boards are placed side by side there is a virtually seamless display thanks to their thinner edges and superior image precision.

Commercial IPS Panel

With a commercial grade IPS panel with a brightness of 450cd/m² (twice the brightness of domestic televisions) this Digital Menu Board is able to reproduce and maintain the ultimate colour temperature for lifelike images even in the most challenging lighting environments. With a lifespan of over 50,000 hours the screen can be in use 24/7 with no loss in image quality. There are no external buttons or controls on the screen to avoid tampering.

Choose from a Library of Pre-Designed Templates or Create Your Own

1st Year Software License Free

With our package the first year of using our cloud based content management system is absolutely free. You don't pay anything for 12 months and get full unrestricted access to the software as well as lifetime technical support. You can also purchase 3 additional year's access at the point of purchase or make a one off payment to have access for life.

Update Instantly and from Anywhere

Updating your screens is extremely simple. Login to www.MySignagePortal.com to upload media, manage playlists, create your own templates and schedule content for whenever you want; giving you complete control over your network. No special software installation or dedicated PC is required, you can update your screens from anywhere in the world with an internet connection.

Create Your Own Templates

Design your own templates and layouts with different media zones for your branding, images and videos. Other Network features include being able to insert webpages, scrolling text messages and custom backgrounds to your designs. Maintain your brand consistency by adding your logo and customising your colours.

Multi Screen Synchronisation

You can synchronise your Digital Menu Boards across multiple screens provided they are connected to the same network. This is ideal for menus above the counter.

Overview

Narrow Bezel

Narrow Bezels allow multiple Digital Menu Boards to be placed side by side that create a near seamless display. With minimal distractions your customers now get a greater viewing experience.

Environmentally Friendly Power Timer

Allows for reduced power usage by automatically powering off in hours that the displays are not required. You can set daily On/Off times for your displays.

Built in Wi-Fi

Connect the screen to the CMS wirelessly via the integrated Wi-Fi or by LAN

Advanced Temperature Control

Designed to run 24/7 in constant use the display has an advanced temperature control system to keep it running at the optimum temperature no matter the environment.

Integrated Android Media Player

The integrated Android Media Player allows for super fast updates. If required you can also run third party Digital Signage software via the Android PC board.

Commercial Grade

Designed for use in commercial applications this screen can run 24/7. No external buttons or controls to avoid tampering.

Portrait/Landscape Orientation

The screen can be used in either a landscape or portrait orientation depending on your requirement.

Mounting Solutions

We can provide a variety of different ways to mount your menu board including flat wall mounts, tilted wall mounts, ceiling mounts and floor stands to suit your requirements.

Plug and Play

If there is no internet access available the screen can still be updated thanks to their backup USB update option. Simply package up your Playlist onto a USB stick and insert into the screen. Your templates, schedule and content will now copy over and start playing.

IPS Panel

Superior image quality with an ultra wide viewing angle of 178°, the screen shines bright thanks to its 450 cd/m² brightness rating (more than twice as bright as a domestic television). From bright sunlight to the most challenging lighting environments these displays are designed to reproduce and maintain the ultimate colour temperature for 'lifelike images' in both landscape and portrait orientations.

Network Features

Videos

Multiple videos playing in a continuous rolling loop

Image

Multiple images playing in a continuous rolling loop

Logo

Brand your layout with your logo which will stay on top of all other zones

Technical Drawing:

Why Choose Our Commercial Display Solutions?

Lifetime Technical Support

From the moment you receive your product, throughout the duration of your warranty and even after your warranty has expired we are here to support you. If you require any assistance setting up or using your product, or have any problems at all, we can provide free technical support via telephone and email.

On-site Support and Maintenance*

If needed, we can provide an installation service for any of our products. We can also set up service-level agreements for larger projects that require maintenance contracts.

Extended Warranty*

All of our commercial display products come with a 3 year commercial warranty as standard but if you want to extend this you can upgrade this to cover a 5 year period at point of purchase.

Training

As well as providing free remote CMS training sessions and webinars we can also visit you to deliver bespoke training for our software and hardware*.

Advanced Replacements†

Should your display suffer from any kind of hardware failure during the warranty period we will send you an advanced replacement and arrange for your old display to be collected, free of charge. This ensures no downtime where you are without a screen.

Custom Product Testing & Configuration

If you need us to test third party software or a website, or configure your screen in a particular way before it is dispatched (e.g. in a particular orientation or network mode), we can do so to make your life easier.

3D Rendering

Want to know how a particular screen will look once installed? Send us a photo of the location and we will create a 3D rendering of any screen in situ to help you to visualise how amazing it will look.

Logistics Support

We hold more stock in our UK warehouse than any other manufacturer so we can help you meet tight deadlines. For last minute orders we can also offer special express or morning delivery options*. We also carry out UK based quality control checks on every display before it leaves our warehouse.

Project Support

If you need to loan a sample unit to test we'd be more than happy to arrange this. We can also provide a rental service for temporary projects*.

Customisation*

Your display can be customised to suit your requirements by adding your logo or printed graphics or even tailoring the colour of a display. We can also carry out hardware modifications to existing products or manufacture bespoke solutions for special projects.

Extras*

As well as being able to provide accessories and add-ons, such as extra remote controls, NUC PCs and video wall controllers, we can also supply custom made flight cases which are great if a display needs to be moved safely from place to place.

†UK mainland only
