

WHAT MAKES OUR SYSTEM UNIQUE?

ALL-IN-ONE SOLUTION

Our screens have an **integrated network media player** along with all other necessary networking hardware built-in; **making installation a breeze**. Other network systems require you to buy additional networking hardware - making setup and installation much more difficult, as well as the added challenge of concealing all of the extra wires and power leads.

Hardware and software often come from different suppliers and any faults that may occur can cause **confusion and conflict**. If a problem occurs you may need to hire an IT consultant to find out exactly what went wrong and with which part. This can lead to disputes between the various suppliers, which often results in each party refusing to take responsibility.

In contrast to this, any issues with our system will be dealt with directly by us; avoiding the involvement of any third parties. **One supplier, one solution.**

STYLE

These are the most **stylish and attractive screens** on the market. Their buttonless tempered glass face, rounded corners, super slim profile and aluminium surround all add to their **eye-catching tablet like aesthetics**.

CLOUD BASED CONTENT MANAGEMENT SYSTEM (CMS)

Updating your screens is **extremely simple**. Login to MySignagePortal.com to upload media, manage playlists, create your own templates and schedule content for whenever you want; giving you complete control over your network. No special software or dedicated PC is required.

CONNECTIVITY

All of these screens have a **LAN connection** as standard and can be upgraded to also have integrated **WiFi** or **3G** connectivity. This means that we can provide a fully integrated cloud based solution for **any location** – even if broadband access is not available.

CONTENT MANAGEMENT SYSTEM (CMS) - MySignagePortal.com

CREATE

Create custom layouts

Choose from one of the pre-designed templates or create your own layouts. This allows you to deliver targeted content and display your images and videos exactly how you want to, you can even add scrolling messages.

Corporate branding

Add your logo to your content and use your corporate colours in scrolling messages to maintain brand consistency.

UPDATE

Update your screens from anywhere

Content can be uploaded and managed from anywhere in the world via our web portal, simply login, upload your images and videos to our secure server and send them directly to your screens.

SCHEDULE

Schedule playlists

You can determine exactly what content is displayed and when. Create playlists that will automatically display your desired content at pre-determined times and dates. Whatever your scheduling requirements, our system can support them.

REMOTE FUNCTIONS

Remote screen functions

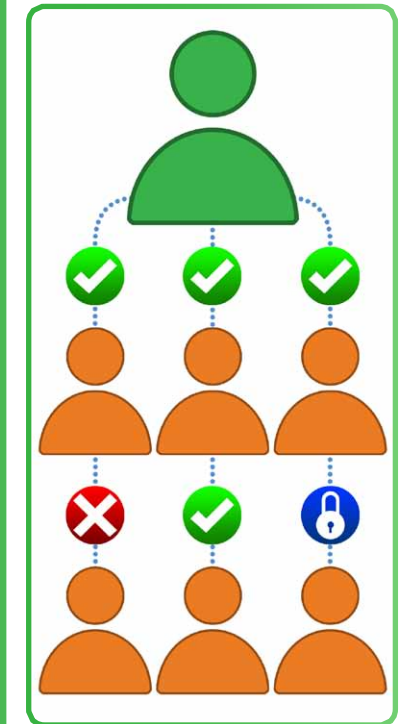

You can now access functions of your screens via the CMS, such as setting On/Off times for each of your screens and adjusting display settings like Brightness, Contrast and Colour; a truly centralised solution.

Daily				Sunday			
No.	Status	On Time	Off Time	No.	Status	On Time	Off Time
1	On	00:00	00:00	1	On	00:00	00:00
2	On	00:00	00:00	2	On	00:00	00:00
3	On	00:00	00:00	3	On	00:00	00:00
Tuesday				Wednesday			
No.	Status	On Time	Off Time	No.	Status	On Time	Off Time

USER CONTROL

Manage your users

You may wish to limit some functions or zones to specific users. For example you may wish to allow a receptionist to have access to the scrolling welcome message on the screen in the reception area but nothing else – our system allows full user rights control.

Review your playback logs

Records are kept from all screen activity so as you can monitor the usage and effectiveness of your content.

WALL MOUNTED SLIMLINE NETWORK DIGITAL ADVERTISING DISPLAYS

FEATURES

Why Choose Our Commercial Display Solutions?

Lifetime Technical Support

From the moment you receive your product, throughout the duration of your warranty and even after your warranty has expired we are here to support you. If you require any assistance setting up or using your product, or have any problems at all, we can provide free technical support via telephone and email.

On-site Support and Maintenance*

If needed, we can provide an installation service for any of our products. We can also set up service-level agreements for larger projects that require maintenance contracts.

Extended Warranty*

All of our commercial display products come with a 3 year commercial warranty as standard but if you want to extend this you can upgrade this to cover a 5 year period at point of purchase.

Training

As well as providing free remote CMS training sessions and webinars we can also visit you to deliver bespoke training for our software and hardware*.

Advanced Replacements†

Should your display suffer from any kind of hardware failure during the warranty period we will send you an advanced replacement and arrange for your old display to be collected, free of charge. This ensures no downtime where you are without a screen.

Custom Product Testing & Configuration

If you need us to test third party software or a website, or configure your screen in a particular way before it is dispatched (e.g. in a particular orientation or network mode), we can do so to make your life easier.

3D Rendering

Want to know how a particular screen will look once installed? Send us a photo of the location and we will create a 3D rendering of any screen in situ to help you to visualise how amazing it will look.

Logistics Support

We hold more stock in our UK warehouse than any other manufacturer so we can help you meet tight deadlines. For last minute orders we can also offer special express or morning delivery options*. We also carry out UK based quality control checks on every display before it leaves our warehouse.

Project Support

If you need to loan a sample unit to test we'd be more than happy to arrange this. We can also provide a rental service for temporary projects*.

Customisation*

Your display can be customised to suit your requirements by adding your logo or printed graphics or even tailoring the colour of a display. We can also carry out hardware modifications to existing products or manufacture bespoke solutions for special projects.

Extras*

As well as being able to provide accessories and add-ons, such as extra remote controls, NUC PCs and video wall controllers, we can also supply custom made flight cases which are great if a display needs to be moved safely from place to place.

†UK mainland only
