

# ALL IN ONE **ANDROID** NETWORK SCREENS

Cloud Based Software

Multiple Media Zones

3G, Wi-Fi, LAN Connection

Display Live Webpages

Scrolling Text Message

Eco Friendly Power Timer

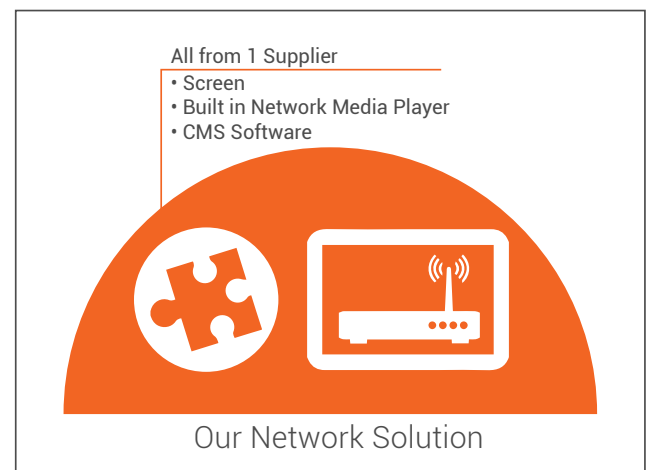

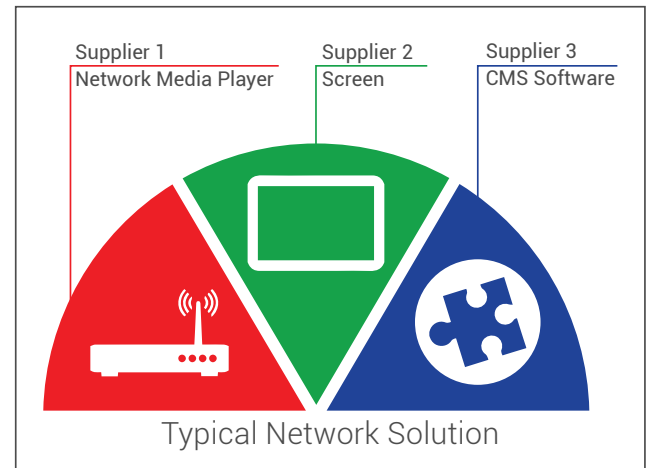

24/7 Commercial Use

Free Wall Mount

## All In One Solution

Our screens have an integrated Android network media player; making installation a breeze. Typically network solutions require you to invest in additional networking hardware - complicating the installation process and the overall system. Hardware and software usually come from different sources which can result in confusion and conflict when identifying any potential faults. In contrast to this, any issues with our screens or Digital Signage software will be dealt with directly by us; one supplier, one solution.

## Android Media Player

Their integrated Android network media player provides super-fast possessing speed for improved communication with the CMS. It also allows you to display live websites; this can be anything from a live web feed from a third party to your social media page. Should you need to you can also run your own software if you already have a CMS solution.

## Connectivity

Connect your Android Network Screens to the internet wirelessly via Wi-Fi or via a Local Area Connection. If an internet connection is not available a 3G router can be incorporated into the screen, meaning that we can provide an integrated network solution for any location.

## Content Management System (CMS)

Updating your screens is extremely simple. Login to [www.MySignagePortal.com](http://www.MySignagePortal.com) to upload media, manage playlists, create your own templates and schedule content for whenever you want; giving you complete control over your network. No special software installation or dedicated PC is required, you can update your screens from anywhere in the world with an internet connection.

## Create Custom Layouts

This feature allows you to design your own layout with different media zones for your images, videos, audio, Microsoft Office documents, webpages, RSS feeds, time, date and also allows you to add a scrolling message or RSS feed. You can even give your layout a corporate "skin" to go around your media zones.

## Schedule Playlists

Display what you like, when you like. Create playlists that will automatically display your desired content a pre-determined times and dates. Whatever your scheduling requirements, our system can support them.

## User Management

Create as many bespoke user accounts as you like. You may wish to limit some functions of the software to specific users, for example you may wish to allow a receptionist to upload media and have access to the screen in the reception area but nothing else - our system allows full user rights control.

## Ultimate Remote Control

Thanks to the all-in-one nature of the screens you can remotely control functions such as adjusting your screen's brightness, rebooting or formatting your screen, playing and stopping content, adjusting the volume and scheduling on/off times; a truly centralised solution.

## Custom Background/Font Colours

Customise your colours - great for maintaining brand consistency. You can choose a colour from the palette or enter a Hex code to modify the colour of your background, scrolling text, static text, time and date.

## Multi-Screen Synchronisation

You can synchronise the content across multiple screens that are connected to the same network. This is ideal for advertising networks on escalators or along lengthy corridors.

Multiple videos playing in a continuous rolling loop

Allows you to input custom text values

Allows you to display multiple live webpages

Set an image or a colour to frame your media zones

## Video

## Static Text

## Webpage

## Background

The digital menu board is divided into several zones. At the top left, a 'NEW DRINKS' section features images of Red Bull, Tropicana, and 20 brand drinks. Below this is a 'HOT WINGS OR EXTREME WINGS' section with a 'LIMITED EDITION' tag and a 'Only 10p Extra Per Wing' offer. To the right of the wings is a 'FRIDAY OPENING TIMES' section stating '1:30pm until 11pm' and providing a phone number '0121 327 9777'. Further right is a 'Merry Christmas' section displaying 'Christmas Family Platter' and 'Christmas Party Platter' with their respective contents. At the bottom, a scrolling text banner reads 'Pepe's Piri Piri by giving you some really delicious food with some tasty treat'. The date '24/12/2015' is displayed on the bottom left, and the time '17:35' is on the bottom right. A Facebook page preview for 'Pepe's Piri Piri' is also visible on the right side.

## Logo

## Date

## Image

## Scrolling Text

## Time

Brand your layout with your logo which will stay on top of all other zones

Display the date in a variety of formats, sizes and in whatever colour you want

Multiple images playing in a continuous rolling loop

Display a ticker tape message or live RSS feed

Display the time in a variety of formats, sizes and in whatever colour you want

## Why Choose Our Commercial Display Solutions?

### Lifetime Technical Support

From the moment you receive your product, throughout the duration of your warranty and even after your warranty has expired we are here to support you. If you require any assistance setting up or using your product, or have any problems at all, we can provide free technical support via telephone and email.

### On-site Support and Maintenance\*

If needed, we can provide an installation service for any of our products. We can also set up service-level agreements for larger projects that require maintenance contracts.

### Extended Warranty\*

All of our commercial display products come with a 3 year commercial warranty as standard but if you want to extend this you can upgrade this to cover a 5 year period at point of purchase.

### Training

As well as providing free remote CMS training sessions and webinars we can also visit you to deliver bespoke training for our software and hardware\*.

### Advanced Replacements†

Should your display suffer from any kind of hardware failure during the warranty period we will send you an advanced replacement and arrange for your old display to be collected, free of charge. This ensures no downtime where you are without a screen.

### Custom Product Testing & Configuration

If you need us to test third party software or a website, or configure your screen in a particular way before it is dispatched (e.g. in a particular orientation or network mode), we can do so to make your life easier.

### 3D Rendering

Want to know how a particular screen will look once installed? Send us a photo of the location and we will create a 3D rendering of any screen in situ to help you to visualise how amazing it will look.

### Logistics Support

We hold more stock in our UK warehouse than any other manufacturer so we can help you meet tight deadlines. For last minute orders we can also offer special express or morning delivery options\*. We also carry out UK based quality control checks on every display before it leaves our warehouse.

### Project Support

If you need to loan a sample unit to test we'd be more than happy to arrange this. We can also provide a rental service for temporary projects\*.

### Customisation\*

Your display can be customised to suit your requirements by adding your logo or printed graphics or even tailoring the colour of a display. We can also carry out hardware modifications to existing products or manufacture bespoke solutions for special projects.

### Extras\*

As well as being able to provide accessories and add-ons, such as extra remote controls, NUC PCs and video wall controllers, we can also supply custom made flight cases which are great if a display needs to be moved safely from place to place.
