

33" Square Professional Advertising Displays

Break away from conventional formats and deliver maximum visual impact

Striking Square Aspect Ratio

The unconventional square format immediately draws attention, offering a unique layout that stands out from standard landscape and portrait displays. Perfect for square content, it enables more balanced and visually engaging compositions that make any installation impossible to miss.

Other Features

Slim & Lightweight Design

At just 42mm deep and 9.8kg, the super slim and lightweight design makes handling and installation easier for AV integrators, while reducing mounting demands and creating a discreet profile that integrates seamlessly into commercial environments.

Beyond HD

Featuring a 1920 × 1920 resolution, the display delivers a pixel density that exceeds standard Full HD, producing crisp, detailed images optimised for square-format content and close-range viewing environments.

Integrated Android 14

The integrated Android 14 media player allows for easy updates via the internet and My Signage Portal. With a 25% performance boost compared to previous versions, it also ensures full compatibility with modern applications and improved security.

Multiple Mounting Methods

Equipped with a standard 200 × 200 VESA mounting pattern, the display supports flexible installation options including traditional wall mounting or suspended cable hanging. The included steel cable system provides a quick, secure, and adaptable alternative for creative installations.

VESA Mount Compatible

Anti-Glare Panel

The anti-glare coated panel reduces reflections and ambient light interference, ensuring consistently clear visibility and improved readability across bright public environments.

Instant Remote Updates

With My Signage Portal, users can manage and control content across one or multiple displays from anywhere in the world. Schedule campaigns, update content instantly, and maintain full remote oversight through a simple, online platform.

Small Equal Bezels

The ultra-slim, uniform bezels on all sides maximise the viewing area and maintain a clean, modern appearance - ideal for multi-screen video walls or seamless side-by-side installations.

Why Choose Our Commercial Display Solutions?

Lifetime Technical Support

From the moment you receive your product, throughout the duration of your warranty and even after your warranty has expired we are here to support you. If you require any assistance setting up or using your product, or have any problems at all, we can provide free technical support via telephone and email.

On-site Support and Maintenance*

If needed, we can provide an installation service for any of our products. We can also set up service-level agreements for larger projects that require maintenance contracts.

Extended Warranty*

All of our commercial display products come with a 3 year commercial warranty as standard but if you want to extend this you can upgrade this to cover a 5 year period at point of purchase.

Training

As well as providing free remote CMS training sessions and webinars we can also visit you to deliver bespoke training for our software and hardware*.

Advanced Replacements†

Should your display suffer from any kind of hardware failure during the warranty period we will send you an advanced replacement and arrange for your old display to be collected, free of charge. This ensures no downtime where you are without a screen.

Custom Product Testing & Configuration

If you need us to test third party software or a website, or configure your screen in a particular way before it is dispatched (e.g. in a particular orientation or network mode), we can do so to make your life easier.

3D Rendering

Want to know how a particular screen will look once installed? Send us a photo of the location and we will create a 3D rendering of any screen in situ to help you to visualise how amazing it will look.

Logistics Support

We hold more stock in our UK warehouse than any other manufacturer so we can help you meet tight deadlines. For last minute orders we can also offer special express or morning delivery options*. We also carry out UK based quality control checks on every display before it leaves our warehouse.

Project Support

If you need to loan a sample unit to test we'd be more than happy to arrange this. We can also provide a rental service for temporary projects*.

Customisation*

Your display can be customised to suit your requirements by adding your logo or printed graphics or even tailoring the colour of a display. We can also carry out hardware modifications to existing products or manufacture bespoke solutions for special projects.

Extras*

As well as being able to provide accessories and add-ons, such as extra remote controls, NUC PCs and video wall controllers, we can also supply custom made flight cases which are great if a display needs to be moved safely from place to place.

†UK mainland only
