33” Square Professional Advertising Displays

Break away from conventional formats and deliver maximum visual impact

Striking Square Aspect Ratio

The unconventional square format immediately draws attention, offering a unique layout that stands out from standard landscape and portrait displays. Perfect for square content, it enables more balanced and visually engaging compositions that make any installation impossible to miss.

1:1
Aspect Ratio

Precision Picture Calibration

Each display panel is professionally calibrated for picture quality, optimising key visual characteristics including colour accuracy, white balance, brightness, contrast and gamma to deliver consistently accurate, true-to-life images.

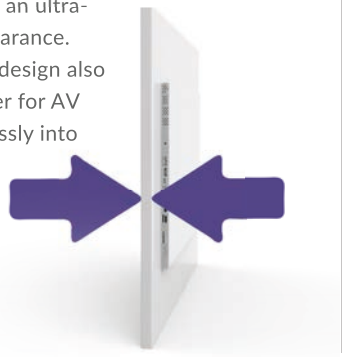
Engineered for Visual Accuracy

- 24/7 Commercial Grade
- Integrated Android 14 Media Player
- 25% Panel Anti Glare Haze
- Integrated Speakers
- 400cd/m² Brightness
- Remote Updates
- Equal Narrow Bezel
- Multiple Mounting Methods
- 3-Year Commercial Warranty
- Lifetime Technical Support

Other Features

Slim Profile, Lightweight Design

With a super-slim edge profile of just 20mm, the display creates the perception of an ultra-thin screen for a sleek, discreet appearance. Weighing only 9.8kg, its lightweight design also makes handling and installation easier for AV integrators, while integrating seamlessly into commercial environments.



Beyond HD

Featuring a 1920 × 1920 resolution, the display delivers a pixel density that exceeds standard Full HD, producing crisp, detailed images optimised for square-format content and close-range viewing environments.

1920px x 1920px

Integrated Android 14

The integrated Android 14 media player allows for easy updates via the internet and My Signage Portal. With a 25% performance boost compared to previous versions, it also ensures full compatibility with modern applications and improved security.

Android 14

Multiple Mounting Methods

The unique steel cable hanging system offers a quick, secure and flexible mounting solution, opening up new possibilities for creative installations. For more traditional wall mounting, the display also features a standard 200 × 200 VESA mounting pattern.

Hanging Mount

VESA Mount Compatible

Anti-Glare Panel With 25% Haze

With a 25% haze, the panel reduces reflections while maintaining image quality, ensuring critical information stays clearly visible. The anti-glare coating also boosts perceived contrast, delivering a sharper, more vibrant display.

Display with 0% Haze

Display with 25% Haze

Instant Remote Updates

With My Signage Portal, users can manage and control content across one or multiple displays from anywhere in the world. Schedule campaigns, update content instantly, and maintain full remote oversight through a simple, online platform.

Small Equal Bezels

The ultra-slim, uniform bezels on all sides maximise the viewing area and maintain a clean, modern appearance - ideal for multi-screen video walls or seamless side-by-side installations.

Uniform 7.98mm Frame

Built-In Speakers

Take your digital signage solution to the next level by adding an audio element using the two integrated slimline speakers.

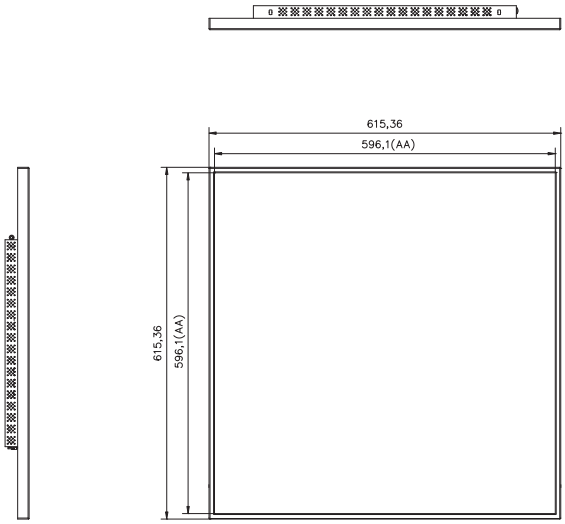
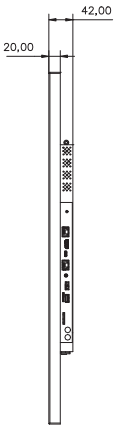
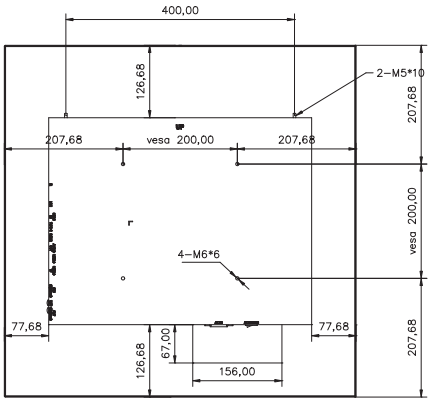
	Technical Support	Lifetime

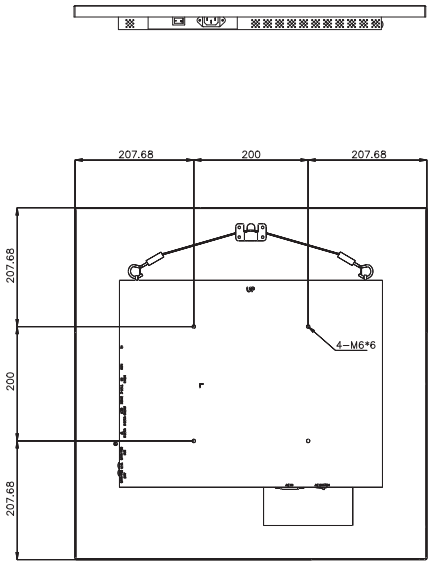
Errors and omissions excepted

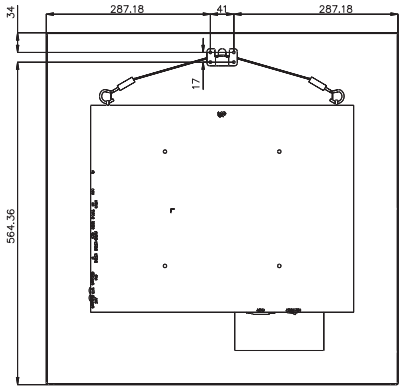
Technical Drawing







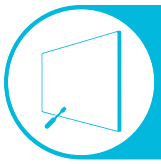




Why Choose Our Commercial Display Solutions?

Lifetime Technical Support

From the moment you receive your product, throughout the duration of your warranty and even after your warranty has expired we are here to support you. If you require any assistance setting up or using your product, or have any problems at all, we can provide free technical support via telephone and email.



On-site Support and Maintenance*

If needed, we can provide an installation service for any of our products. We can also set up service-level agreements for larger projects that require maintenance contracts.

Extended Warranty*

All of our commercial display products come with a 3 year commercial warranty as standard but if you want to extend this you can upgrade this to cover a 5 year period at point of purchase.

Training

As well as providing free remote CMS training sessions and webinars we can also visit you to deliver bespoke training for our software and hardware*.

Advanced Replacements†

Should your display suffer from any kind of hardware failure during the warranty period we will send you an advanced replacement and arrange for your old display to be collected, free of charge. This ensures no downtime where you are without a screen.

Custom Product Testing & Configuration

If you need us to test third party software or a website, or configure your screen in a particular way before it is dispatched (e.g. in a particular orientation or network mode), we can do so to make your life easier.

3D Rendering

Want to know how a particular screen will look once installed? Send us a photo of the location and we will create a 3D rendering of any screen in situ to help you to visualise how amazing it will look.

Logistics Support

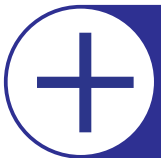
We hold more stock in our UK warehouse than any other manufacturer so we can help you meet tight deadlines. For last minute orders we can also offer special express or morning delivery options*. We also carry out UK based quality control checks on every display before it leaves our warehouse.

Project Support

If you need to loan a sample unit to test we'd be more than happy to arrange this. We can also provide a rental service for temporary projects*.

Customisation*

Your display can be customised to suit your requirements by adding your logo or printed graphics or even tailoring the colour of a display. We can also carry out hardware modifications to existing products or manufacture bespoke solutions for special projects.



Extras*

As well as being able to provide accessories and add-ons, such as extra remote controls, NUC PCs and video wall controllers, we can also supply custom made flight cases which are great if a display needs to be moved safely from place to place.
