

55" Vibrant 4K Slimline Pro Advertising Displays

Premium Vibrant 4K displays combine striking tablet-like aesthetics, a robust protective enclosure and a tempered glass face with an integrated Android 14 media player

Protective Sleek Enclosure

These deluxe displays are the ultimate solution for displaying your content in public spaces. As well as protecting the internal components, the robust aluminium surround and tempered edge-to-edge glass also deliver captivating tablet-like aesthetics for a truly high-end feel.

Free Flush-Fit Wall Mount

A super slim wall mount is included at no extra cost, enabling you to install your screen in either landscape or portrait orientation with a secure and aesthetically-pleasing flush fit to the wall.

4K Ultra High Definition Resolution

Giant Tablet Styling

Equal Slender Bezels

Lightweight Design

Remote Updates

Free Scheduling Software

Landscape or Portrait Orientation

Integrated Speakers

3 Year Commercial Warranty

Other Features

Anti-Glare Panel With 25% Haze

With a 25% haze, the full glass front reduces reflections while maintaining image quality, ensuring critical information stays clearly visible. The anti-glare coating also boosts perceived contrast, delivering a sharper, more vibrant display.

Display with 0% Haze

Display with 25% Haze

800cd/m² Brightness

The powerful 800cd/m² direct lit backlight delivers around twice the brightness of most indoor commercial displays, ensuring content stands out in brightly lit environments. By distributing light more evenly across the entire screen, direct lit technology also provides greater brightness uniformity, reducing dark patches and delivering a clearer, more consistent viewing experience.

Toughened Safety Glass

Although the tempered glass face is incredibly tough, in the unlikely event of a breakage the specialised safety glass will shatter into small chunks rather than shards. Not only does this prevent injury, it also protects the LCD panel from damage.

Aluminium Surround

Thanks to their stunning surround, which is made of diamond-cut 6-series aluminium alloy and has a premium brushed finish, as well as their unique concave indent profile, these displays are truly distinguishable. Sculpting the surround from a single piece, rather than in segments, achieves a cleaner finish.

Integrated Android 14 Media Player

The integrated Android 14 media player offers enhanced security, smoother performance and improved compatibility with modern digital signage software, creating a reliable, future-ready platform for seamless 4K content playback and long-term commercial use.

24/7 Commercial Grade

Designed for continuous use in public spaces, these displays utilise commercial grade LCD panels, LED backlights and internal components. This means they can run 24/7 for over 50,000 hours. To avoid tampering, they also have no external buttons or controls.

Remarkable 4K Display

With four times the resolution of Full HD you can achieve a truly immersive experience with incredible image quality and smooth playback at 60fps. The 4K resolution is now compatible with the integrated Android 14 Media Player, our CMS software and third party devices, giving you ultimate flexibility.

Multiple AV Inputs

By connecting to an external device via HDMI, such as a third-party PC or media player, these versatile displays can be effortlessly transformed into a commercial monitor with striking aesthetics.

	Optional Accessories	Wall Mount, Floor Stand/Trolley, Ceiling Mount, Table Stand
Warranty	Warranty Period	3 Years
	Technical Support	Lifetime

Why Choose Our Commercial Display Solutions?

Lifetime Technical Support

From the moment you receive your product, throughout the duration of your warranty and even after your warranty has expired we are here to support you. If you require any assistance setting up or using your product, or have any problems at all, we can provide free technical support via telephone and email.

On-site Support and Maintenance*

If needed, we can provide an installation service for any of our products. We can also set up service-level agreements for larger projects that require maintenance contracts.

Extended Warranty*

All of our commercial display products come with a 3 year commercial warranty as standard but if you want to extend this you can upgrade this to cover a 5 year period at point of purchase.

Training

As well as providing free remote CMS training sessions and webinars we can also visit you to deliver bespoke training for our software and hardware*.

Advanced Replacements†

Should your display suffer from any kind of hardware failure during the warranty period we will send you an advanced replacement and arrange for your old display to be collected, free of charge. This ensures no downtime where you are without a screen.

Custom Product Testing & Configuration

If you need us to test third party software or a website, or configure your screen in a particular way before it is dispatched (e.g. in a particular orientation or network mode), we can do so to make your life easier.

3D Rendering

Want to know how a particular screen will look once installed? Send us a photo of the location and we will create a 3D rendering of any screen in situ to help you to visualise how amazing it will look.

Logistics Support

We hold more stock in our UK warehouse than any other manufacturer so we can help you meet tight deadlines. For last minute orders we can also offer special express or morning delivery options*. We also carry out UK based quality control checks on every display before it leaves our warehouse.

Project Support

If you need to loan a sample unit to test we'd be more than happy to arrange this. We can also provide a rental service for temporary projects*.

Customisation*

Your display can be customised to suit your requirements by adding your logo or printed graphics or even tailoring the colour of a display. We can also carry out hardware modifications to existing products or manufacture bespoke solutions for special projects.

Extras*

As well as being able to provide accessories and add-ons, such as extra remote controls, NUC PCs and video wall controllers, we can also supply custom made flight cases which are great if a display needs to be moved safely from place to place.
