Size (mm)	203x119x30

A COST EFFECTIVE OPS SOLUTION

Performance meets Value – The 4th Generation Intel® Core™ i3 Processors provides more computing power than the previous generation of Celeron, has one of the lowest power consumptions in the class and is incredible value for money.

Flexible Working – Its unique architecture supports a wide range of different operating systems like Windows 7, 8, Windows 10 or even Linux to suit your way of working.

Intel 4K Graphics – Experience a remarkable 4K resolution, with faster frame rates and outstanding visual details for video playback thanks to the Intel® 5th generation integrated graphic chip.

Fully Embedded Solution – All the connectors are contained within the display including power and both video and audio signals so no external cables are required.

Quality Commitment – Built with industrial grade components you can be confident in the reliability of our product and so offer a 5 year warranty* on the OPS computer.

**Economical** – Utilise a higher performance level while consuming less power.

*This product has a 5 year warranty when purchased with the Interactive Touch Display with MeetingPad otherwise a 3 year warranty is applied..

Why Choose Our Commercial Display Solutions?

Lifetime Technical Support

From the moment you receive your product, throughout the duration of your warranty and even after your warranty has expired we are here to support you. If you require any assistance setting up or using your product, or have any problems at all, we can provide free technical support via telephone and email.

On-site Support and Maintenance*

If needed, we can provide an installation service for any of our products. We can also set up service-level agreements for larger projects that require maintenance contracts.

Extended Warranty*

All of our commercial display products come with a 3 year commercial warranty as standard but if you want to extend this you can upgrade this to cover a 5 year period at point of purchase.

Training

As well as providing free remote CMS training sessions and webinars we can also visit you to deliver bespoke training for our software and hardware*.

Advanced Replacements†

Should your display suffer from any kind of hardware failure during the warranty period we will send you an advanced replacement and arrange for your old display to be collected, free of charge. This ensures no downtime where you are without a screen.

Custom Product Testing & Configuration

If you need us to test third party software or a website, or configure your screen in a particular way before it is dispatched (e.g. in a particular orientation or network mode), we can do so to make your life easier.

3D Rendering

Want to know how a particular screen will look once installed? Send us a photo of the location and we will create a 3D rendering of any screen in situ to help you to visualise how amazing it will look.

Logistics Support

We hold more stock in our UK warehouse than any other manufacturer so we can help you meet tight deadlines. For last minute orders we can also offer special express or morning delivery options*. We also carry out UK based quality control checks on every display before it leaves our warehouse.

Project Support

If you need to loan a sample unit to test we'd be more than happy to arrange this. We can also provide a rental service for temporary projects*.

Customisation*

Your display can be customised to suit your requirements by adding your logo or printed graphics or even tailoring the colour of a display. We can also carry out hardware modifications to existing products or manufacture bespoke solutions for special projects.

Extras*

As well as being able to provide accessories and add-ons, such as extra remote controls, NUC PCs and video wall controllers, we can also supply custom made flight cases which are great if a display needs to be moved safely from place to place.

†UK mainland only
